EDUCATION

MIT SLOAN SCHOOL OF MANAGEMENT

Candidate for MBA, May 2027

Cambridge, MA
2025 - Present

- Coursework: Tech2Market, Innovation Teams, Entrepreneurial Sales, AI Studio, Marketing Innovation
- Won 1st place out of 50+ MIT teams at the 2026 Google PM Hackathon by building and launching a health-tech solution focused on making hospital prices more transparent.
- Co-founded a fashion tech startup revolutionizing online shopping with virtual try-ons via digital twins and AI-driven personalized outfit recommendations.

HERIOT-WATT UNIVERSITY

Bachelor of Science in Statistical Data Science

Putrajaya, Malaysia
2018 - 2021

- First Class Honors; 100% Merit Scholarship Recipient (awarded to 2 out of 30 students)
- President of AIESEC: Led a 40-member team and pioneered 3 virtual volunteering initiatives during COVID-19, conducting virtual classes and raising USD 5,000+ to support 200+ disabled individuals and orphans.
- Co-founder of Local TEDx Event: Led a 20-person team to orchestrate the inaugural TEDxMCKL, securing 10 distinguished speakers, drawing 100+ live attendees and generating 160,000+ views on YouTube.

EXPERIENCE

OLIVER WYMAN

Associate Manager

Kuala Lumpur, Malaysia
2021 - 2025

Product Management

- Designed a pioneering SME onboarding process for Malaysia's first digital bank, enabling unregistered businesses to access banking services and achieving 100,000+ sign-ups within first 2 weeks.
- Innovated SME loan products for a leading SEA regional bank, projected to boost topline revenue by 30% and cut loan processing time by 50% through standardized application parameters.

AI/ML & Data Science

- Orchestrated a 3-person data scientist team to develop a customer elasticity model for a global bank to facilitate differentiated pricing based on price sensitivity of customers, boosting profitability by ~5%.
- Reconstructed customer risk profiling model for a leading Malaysian bank with limited oversight, decreasing misclassified high-risk customers by 30% and enhancing onboarding efficiency by 10%.

Strategy & Performance Improvement

- Directed due diligence on a Singaporean insurance company, developing strategies projected to boost target's growth rate by 7% and increase annual revenue from ~USD 600 million to ~USD 1 billion over 5 years.
- Designed a value creation plan for a leading Malaysian investment holding company (valued at USD 1.6 billion) and presented directly to the CEO; projected to uplift equity value by ~USD 1.1 billion over 5 years.
- Directed a 10-person program management team to roll out enhanced anti-financial crime controls and training for 500+ employees across 6 subsidiaries of a top ASEAN bank.
- Innovated robust controls and operating model at a leading Malaysian bank to thwart money laundering, exceeding regulatory standards and setting a benchmark that was later adopted by 2 other major banks.

TARAYANA MICROFINANCE

Microfinance institution founded by the Queen Mother of Bhutan; provided microloans to 900+ rural families

Thimphu, Bhutan
2023 - 2024

Pro Bono Consultant (Secondment from Oliver Wyman)

- Innovated a model to disburse loans in 2 batches with smaller amount, catalyzing more effective observation of customer's loan repayment behavior and slashing non-performing loans by 50%.
- Built an app to engineer low-cost, digital credit application process, leading to a 400% year-on-year growth in loan portfolio.
- Conducted debt sustainability analysis and forged key relationships to secure ~USD 230,000 in debt funding from a Bhutanese bank, enabling provision of loans to 200+ rural families.
