EDUCATION

MIT SLOAN SCHOOL OF MANAGEMENT

Cambridge, MA

Candidate for MBA, May 2027

2025 – Present

- Relevant Coursework: AI Venture Studio, Entrepreneurial Sales/GTM, Financial Accounting, Tech2Market
- Led a team of five MBA students to win 1st place at Google PM Hackathon 2026 among 30+ MIT teams.
- Rapidly prototyped 10+ AI-powered applications spanning agent orchestration, autonomous trading, and speech coaching.
- Co-founded a fashion-tech startup building virtual try-on technology using 3D digital twins and AI-driven styling; conducted 100+ customer discovery and industry expert interviews to validate product-market fit.

HERIOT-WATT UNIVERSITY

Putrajaya, Malaysia

Bachelor of Science in Statistical Data Science, First Class Honors

2018 – 2021

- 100% Merit Scholarship Recipient (awarded to two out of 30 students in cohort)
- AIESEC President: Led pivot from overseas to virtual volunteering during COVID-19, supporting 200+ disabled individuals and orphans through virtual classes.

EXPERIENCE

OLIVER WYMAN

Kuala Lumpur, Malaysia

Associate Manager

2021 – 2025

GTM and Partnerships

- Designed GTM strategies and value creation plans for five portfolio companies of a leading Malaysian investment holding company; presented directly to CEO with projected equity value uplift of ~\$1.1B over five years.
- Developed GTM strategies for a leading Southeast Asian SME bank, projected to boost topline revenue by 30% and streamline customer onboarding time by 50%.
- Structured commercials and pricing for 10+ project proposals; directly contributed to winning three multi-million-dollar consulting engagements.

Operations

- Overhauled anti-money laundering operations and workforce model at a leading Malaysian bank, setting a compliance benchmark that was subsequently adopted by two other major banks.
- Designed pioneering SME onboarding process for Malaysia's first digital bank, enabling unregistered businesses to access banking and achieving 100,000+ sign-ups within the first two weeks after launch.

Financial Modeling and Reporting

- Directed commercial due diligence and financial modeling for acquisition of a Singaporean insurance company; developed a value creation plan projected to boost growth rate by 7% and increase annual revenue by ~\$400M.
- Established cross-country reporting mechanism to manage a 500-employee program across six subsidiaries of a top ASEAN bank to uplift anti-financial crime controls.

Analytics, AI/ML and Data Science

- Led a three-person data science team to develop an ML-based customer price elasticity model for a global bank, boosting profitability by ~5%.
- Developed a customer risk profiling model for a leading Malaysian bank, decreasing misclassified high-risk customers by 30% and enhancing onboarding efficiency by 10%.

TARAYANA MICROFINANCE

Thimphu, Bhutan

Bhutanese Microfinance Startup founded in 2018

2023 – 2024

Pro Bono Consultant (Secondment from Oliver Wyman)

- Designed a staged loan disbursement model that enabled earlier detection of repayment risk, slashing non-performing loans by 50%.
- Built a digital credit application platform that reduced processing costs by 60%, driving 400% growth in loan portfolio.
- Secured ~\$230K in debt funding from a Bhutanese bank through debt sustainability analysis and stakeholder negotiation, enabling loans to 200+ rural families.
